SUMMARY

Results-driven Full Stack Developer with hands-on experience building and deploying production-grade web applications used by real users. Demonstrated ability to ship end-to-end features spanning real-time communication, data visualization, and secure authentication. Passionate about clean architecture, performance optimization, and open-source contributions.

EDUCATION

NIMS Institute of Engineering & Technology
Bachelor of Technology in Computer Engineering — CGPA: 8.9

Jaipur, India
July 2022 – 2026

EXPERIENCE

Eye Craft Security — Full Stack Developer Intern

Jan 2026 – April 2026

- Engineered and shipped frontend and backend features for security-focused web applications, integrating RESTful APIs and server-side logic to handle real-world client requirements.
- Improved application reliability through testing pipelines and debugging, reducing UI bugs by identifying root causes across the full stack.
- Collaborated with designers and senior developers to deliver responsive, production-ready interfaces on schedule.

IBM — Web Development Intern

June 2024 – Aug 2024

- Built **Wellness Buddy**, a personalized health platform aligned with **SDG-3 (Good Health & Well-being)**, collecting user health data through interactive quizzes and assessments.
- Implemented a recommendation engine analyzing user responses to generate tailored exercise routines, diet plans, and wellness resources for each user.
- Designed a clean, accessible UI using HTML, CSS, and JavaScript ensuring smooth user journeys from health assessment to actionable suggestions.

PROJECTS

MeshSpire ◇ [Live Demo](#) ◇ [GitHub](#) ◇ *Node.js, Express, React, Next.js, PostgreSQL, Prisma, WebRTC, AWS*

- Architected a real-time tutoring platform with live video sessions, instant messaging, and integrated payments, reducing friction in tutor-student interactions end-to-end.
- Onboarded **8+ tutors** and **30+ students**; built a scalable backend with PostgreSQL and Prisma ORM on AWS, using a Turborepo monorepo to streamline builds across packages.

Financial Dashboard System ◇ [Live Demo](#) ◇ [GitHub](#) ◇ *React.js, Node.js, Express, MongoDB, Chart.js*

- Developed a full-stack finance dashboard adopted by **40+ users** to track income, expenses, and spending trends with interactive Chart.js visualizations and real-time insights.
- Built JWT-based authentication and a mobile-first responsive UI; users can monitor financial trends across fully custom date ranges.

TECHNICAL SKILLS

Programming Languages C, C++, Python, Java, JavaScript, TypeScript, SQL

Frontend Development React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend Development Node.js, Express.js, RESTful APIs, WebSockets, WebRTC

Databases & ORM PostgreSQL, MySQL, MongoDB, Prisma ORM

Cloud & DevOps AWS, Docker, Vercel, Turborepo

Developer Tools Git, GitHub, Postman

ACHIEVEMENTS & CERTIFICATIONS

- Level Supermind Hackathon:** Competed nationally, building a functional prototype under a 24-hour time constraint against 1000+ participants.
- Social Summer of Code (SSOC):** Contributed merged pull requests to open-source repositories, collaborating with maintainers on real-world software used by developers globally.
- Flipkart GRiD 6.0 — Software Development Track:** Cleared multiple competitive rounds testing DSA, system design, and software engineering fundamentals among thousands of participants.
